

BUG_REPORT.md

Polished GitHub Issue Template for the OPRMT™ Repository

Document	Repository Issue Template
Recommended Path	.github/ISSUE_TEMPLATE/BUG_REPORT.md
Repository	OPRMT™ Framework Repository
Owner	Michael W. Fleming
Version	v1.0.0
Status	Ready for repository use
Generated	2026-05-02

Purpose

This document provides a standardized bug report template for the OPRMT™ GitHub repository. It is designed to capture technical issues, documentation defects, broken links, automation failures, prompt-logic issues, and framework compliance concerns in a structured, reviewable format.

Repository Placement

```
.github/ISSUE_TEMPLATE/BUG_REPORT.md
```

Optional repository-visible copy:

```
BUG_REPORT.md
```

GitHub Issue Template Header

Copy this YAML front matter at the top of the Markdown issue template file.

```
---
name: "Bug Report"
about: "Report a technical, documentation, repository, prompt, validation, or automation issue in the OPRMT™ repository."
title: "[BUG]: "
labels: ["bug", "needs-review"]
assignees: ""
---
```

Bug Report Form

1. Summary

Provide a clear summary of the issue.

Example: The README link to the OPRMT™ Objective specification points to the wrong file path.

2. Bug Category

- ☐ Repository structure issue
- ☐ Broken file path or link
- ☐ Documentation error
- ☐ Formatting issue
- ☐ Markdown rendering issue
- ☐ Prompt template issue
- ☐ OPRMT™ framework logic issue
- ☐ PCE validation issue
- ☐ DOAS™ scoring issue
- ☐ Certification content issue
- ☐ Automation script issue
- ☐ GitHub Actions issue
- ☐ Licensing or usage-policy issue
- ☐ Other

If other, describe:

Other category:

3. Location of the Issue

Exact file path, folder, heading, section, or link where the issue appears.

Example: /standard/OPRMT-Framework-Standard-v1.0.md

Section or heading

Section:

4. Current Behavior

Describe what is currently happening.

Example: The link points to `/framework/objective/spec.md`, but that file does not exist.

5. Expected Behavior

Describe what should happen instead.

Example: The link should point to `/framework/objective/OPRMT-Objective-Spec-v1.0.md`.

6. Steps to Reproduce

1. Open the repository README.md.
2. Scroll to the Framework Components section.
3. Click the Objective specification link.
4. Observe the broken path error.

7. Impact Level

- ☐ Critical - blocks repository use, breaks core documentation, or creates serious confusion
- ☐ High - affects important documentation, scripts, or framework interpretation
- ☐ Medium - causes confusion but has a clear workaround
- ☐ Low - typo, formatting issue, cosmetic problem, or minor inconsistency

8. Affected Repository Area

- ☐ OPRMT™ Framework Standard
- ☐ Objective documentation
- ☐ Parameters documentation
- ☐ Results documentation
- ☐ Method documentation
- ☐ Tools documentation
- ☐ Prompt templates
- ☐ Prompt clusters
- ☐ Prompt Compliance Engineering
- ☐ DOAS™ scoring model
- ☐ Certification materials
- ☐ Governance documents
- ☐ Legal or licensing documents
- ☐ Repository automation
- ☐ GitHub Actions
- ☐ README or index files
- ☐ Other

9. Evidence

Attach screenshots, terminal output, error messages, copied text, or links if applicable.

Paste error messages or evidence here:

10. Environment

Operating system:
Browser:
GitHub environment:
Script/runtime:
Node version:
Python version:
Apps Script project:
Other relevant environment details:

If this is documentation-only, write: Documentation-only issue.

11. Proposed Fix

Describe the likely fix if known.

Example: Update README.md link from /framework/objective/spec.md to /framework/objective/OPRMT-Objective-Spec-v1.0.md

12. Related Files

```
/README.md  
/docs/index.md  
/framework/objective/README.md
```

13. Version or Commit Reference

```
Repository version:  
Branch:  
Commit hash:  
Release tag:
```

14. OPRMT™ Compliance Check

Complete this section if the bug affects prompt structure, framework documentation, scoring, validation, certification material, or official terminology.

Does the issue affect the official OPRMT™ structure?

- ☐ Yes
- ☐ No
- ☐ Unsure

Affected OPRMT™ component:

- ☐ Objective
- ☐ Parameters
- ☐ Results
- ☐ Method
- ☐ Tools
- ☐ Full framework sequence
- ☐ Not applicable

Describe the compliance concern

Compliance concern:

15. Contributor Confirmation

- ☐ I have searched existing issues to avoid duplicates.
- ☐ I have provided enough detail for review.
- ☐ I understand maintainers may request clarification.
- ☐ I understand this report does not grant permission to modify, reuse, commercialize, or redistribute OPRMT™ intellectual property outside the repository license and usage policy.

Maintainer Review Section

This section is for maintainers only.

Review Status

- ☐ New
- ☐ Confirmed
- ☐ Needs clarification
- ☐ In progress
- ☐ Fixed
- ☐ Duplicate
- ☐ Not reproducible
- ☐ Out of scope
- ☐ Closed

Use the following content for the repository file at .github/ISSUE_TEMPLATE/BUG_REPORT.md.

```

---
name: "Bug Report"
about: "Report a technical, documentation, repository, prompt, validation, or automation issue in the
OPRMT™ repository."
title: "[BUG]: "
labels: ["bug", "needs-review"]
assignees: ""
---
# Bug Report
## 1. Summary
Provide a clear summary of the issue.
```text
Example:
The README link to the OPRMT™ Objective specification points to the wrong file path.
```
---
## 2. Bug Category
Select the category that best describes the issue.
- [ ] Repository structure issue
- [ ] Broken file path or link
- [ ] Documentation error
- [ ] Formatting issue
- [ ] Markdown rendering issue
- [ ] Prompt template issue
- [ ] OPRMT™ framework logic issue
- [ ] PCE validation issue
- [ ] DOAS™ scoring issue
- [ ] Certification content issue
- [ ] Automation script issue
- [ ] GitHub Actions issue
- [ ] Licensing or usage-policy issue
- [ ] Other
If other, describe:
```text
Other category:
```
---
## 3. Location of the Issue
Provide the exact file path, folder, heading, section, or link where the issue appears.
```text
Example:
/standard/OPRMT-Framework-Standard-v1.0.md

```

```
```\nSection or heading:\n```\ntext\nSection:\n```\n\n---\n## 4. Current Behavior\nDescribe what is currently happening.\n```\ntext\nExample:\nThe link points to /framework/objective/spec.md, but that file does not exist.\n```\n\n---\n## 5. Expected Behavior\nDescribe what should happen instead.\n```\ntext\nExample:\nThe link should point to /framework/objective/OPRMT-Objective-Spec-v1.0.md.\n```\n\n---\n## 6. Steps to Reproduce\nList the exact steps required to reproduce the issue.\n```\ntext\n1. Open the repository README.md.\n2. Scroll to the Framework Components section.\n3. Click the Objective specification link.\n4. Observe the broken path error.\n```\n\n---\n## 7. Impact Level\nSelect the impact level.\n- [ ] Critical – blocks repository use, breaks core documentation, or creates serious confusion\n- [ ] High – affects important documentation, scripts, or framework interpretation\n- [ ] Medium – causes confusion but has a clear workaround\n- [ ] Low – typo, formatting issue, cosmetic problem, or minor inconsistency\n\n---
```

```
## 8. Affected Repository Area
Select all that apply.
- [ ] OPRMT™ Framework Standard
- [ ] Objective documentation
- [ ] Parameters documentation
- [ ] Results documentation
- [ ] Method documentation
- [ ] Tools documentation
- [ ] Prompt templates
- [ ] Prompt clusters
- [ ] Prompt Compliance Engineering
- [ ] DOAS™ scoring model
- [ ] Certification materials
- [ ] Governance documents
- [ ] Legal or licensing documents
- [ ] Repository automation
- [ ] GitHub Actions
- [ ] README or index files
- [ ] Other
---

## 9. Evidence
Attach screenshots, terminal output, error messages, copied text, or links if applicable.
``text
Paste error messages or evidence here:
```

10. Environment
Complete this section if the issue relates to automation, scripts, local setup, GitHub Actions, rendering,
or execution.
``text
Operating system:
Browser:
GitHub environment:
Script/runtime:
Node version:
Python version:
Apps Script project:
Other relevant environment details:
```

If this is documentation-only, write:
``text
Documentation-only issue.
```
```

```

11. Proposed Fix
Describe the likely fix if known.
``text
Example:
Update the README.md link from:
/framework/objective/spec.md
To:
/framework/objective/OPRMT-Objective-Spec-v1.0.md
```

---
## 12. Related Files
List related files that may also need review.
``text
/README.md
/docs/index.md
/framework/objective/README.md
```

13. Version or Commit Reference
If known, provide the affected version, branch, tag, or commit.
``text
Repository version:
Branch:
Commit hash:
Release tag:
```

---
## 14. OPRMT™ Compliance Check
Complete this section if the bug affects prompt structure, framework documentation, scoring, validation,
certification material, or official terminology.
Does the issue affect the official OPRMT™ structure?
- [ ] Yes
- [ ] No
- [ ] Unsure
Affected OPRMT™ component:
```

```

- [ ] Objective
- [ ] Parameters
- [ ] Results
- [ ] Method
- [ ] Tools
- [ ] Full framework sequence
- [ ] Not applicable
Describe the compliance concern:
```text
Compliance concern:
```
---
## 15. Contributor Confirmation
By submitting this bug report, I confirm that:
- [ ] I have searched existing issues to avoid duplicates.
- [ ] I have provided enough detail for review.
- [ ] I understand maintainers may request clarification.
- [ ] I understand this report does not grant permission to modify, reuse, commercialize, or redistribute
OPRMT™ intellectual property outside the repository license and usage policy.
